# Connecting a Laptop to the AV system

UNIVERSITY of MARYLAND
SCHOOL OF PHARMACY

Each podium has a VGA and an HDMI cable with adapters for the most common laptop connections, including DisplayPort, Mini-DisplayPort, and USB 3.0 Type C.

DisplayPort

Mini DisplayPort

USB-C

Use these adapters by plugging one end into the HDMI cable and the other end into your device

On the Touch Pad, first press the Laptop button (1) followed by any of the Projector or LCD buttons (2), you wish to connect to. It can take a few seconds for the laptop feed to appear on the screen. If the image does not display, unplug and re-plug the cable into your laptop.
