EXPERTISE. INFLUENCE. IMPACT.

Faculty in the **Department of Pharmacy Practice and Science** improve health care through innovation, collaboration, and advocacy in pharmacy education, practice, and research. The department’s more than 40 faculty members have over $15.3 million in grants and contracts and have over 35,000 patient encounters each year, providing clinical services in specialties areas such as cardiology, oncology, pediatrics, HIV/AIDS, mental health, diabetes, geriatrics, and palliative care in both ambulatory and acute care settings. These practitioners have pioneered new roles for pharmacists in advanced clinical practice roles by supporting and teaching patients, students, residents, and health care practitioners regarding the best use of medicines.

The department’s research initiatives address clinical studies for unmet needs and the development of clinical tools to maximize therapeutic success, health disparities, medication use, and best practices to prevent and treat a variety of diseases. In addition, clinical science research activities focus on gaining a better understanding of drug efficacy and delivery to support policy development.

**PRACTICE ACTIVITIES OF OUR PHARMACY FACULTY**

- Pharmacy faculty practice in environments including acute and ambulatory care settings
- Faculty have expertise in various specialties, including critical care, oncology, infectious diseases, mental health, cardiology, diabetes, pain and palliative care, pediatrics, as well as geriatrics.
- Pharmacy faculty implemented the Maryland P^3 (Patients, Pharmacist Partnerships) Program where pharmacists provide coaching to patients with chronic diseases.

**PHARMACY PRACTICE PROGRAMS**

**Anticoagulation**
- University of Maryland Medical Center (UMMC)

**Cardiology**
- UMMC
- Veterans Administration Medical Center (VAMC), Baltimore

**Chronic Disease Management**
- Holy Cross Health
- P^3 Sites
- VAMC, Baltimore, MD

**Critical Care**
- Medical Intensive Care, UMMC

**Diabetes**
- Montgomery County Primary Care Coalition
- P^3 Program
- University of Maryland Midtown Campus
- University of Maryland Center for Diabetes and Endocrinology

**Family Medicine**
- University Family Medicine Associates

**Geriatrics**
- VAMC, Loch Raven
- MedStar Good Samaritan Hospital

**Hepatology**
- University of Maryland Center for Infectious Diseases, Midtown Campus
- University of Maryland Faculty Physicians, Inc.
- Department of Health and Mental Hygiene: Maryland Medical Assistance Program

**HIV/AIDS**
- University of Maryland Center for Infectious Diseases, Midtown Campus

**Infectious Diseases**
- UMMC

**Internal Medicine**
- UMMC
- Medstar Georgetown University Hospital
Medication Therapy Management (MTM)
• University of Maryland Baltimore Washington Medical Center (UM BWMC)
• Johns Hopkins Home Care Group
• Montgomery County Primary Care Coalition
• P3 eHealth Services

Mental Health
• Helping Up Mission/Health Alliance Associates
• Howard County Public Health Department
• Mental Hygiene Administration, State of Maryland
• Spring Grove Hospital
• Springfield Hospital Center
• Clifton T. Perkins Hospital Center

Oncology
• Greenebaum Cancer Center, UMMC
• UM BWMC

Pain Management/Palliative Care
• MedStar

Pediatrics
• General Pediatrics, UMMC
• President’s Interdisciplinary Clinic, UMMC

Pharmacy Administration
• Johns Hopkins Hospital
• UMMC

Primary Care
• University of Maryland Faculty Physicians, Inc.

Renal
• Renal Interdisciplinary Safety Clinic, VAMC, Baltimore

Toxicology
• Maryland Poison Center

Transitions of Care
• UM BWMC
• University of Maryland Prince George’s Hospital Center

Practice and Research Centers
• Center for Innovative Pharmacy Solutions
• Center for Translational Medicine
• Maryland Poison Center
• Peter Lamy Center on Drug Therapy and Aging
• Maryland Psychiatric Research Center

POST-GRADUATE TRAINING
University of Maryland Residency and Fellowship Program
At the University of Maryland, preceptors use a wide range of methods and a number of different settings to enhance residents and fellows’ clinical, research, and teaching skills.
Residency programs are accredited by the American Society of Health-System Pharmacists.

Residency Programs:
Post-Graduate Year 1 Programs
• Community Pharmacy
• Pharmacy

Two-Year Program (PGY1/PGY2)
• Pharmacotherapy

Post-Graduate Year 2 Programs
• Ambulatory Care
• Cardiology
• Critical Care
• Emergency Medicine
• Geriatric Pharmacy
• Health System and Practice Administration
• Infectious Diseases
• Oncology Pharmacy
• Pain and Palliative Care
• Pediatric Pharmacy
• Psychiatric Pharmacy
• Solid Organ Transplant

Fellowship Programs
• Clinical Toxicology Fellowship
• Ellen H. Yankellow Health Outcomes Fellowship
• Peter Lamy Center on Drug Therapy and Aging Geriatric Pharmacotherapy Fellowship
• Pediatric Fellowship
