

Post-Doctoral Fellowship in Pharmacoepidemiology and Pharmaco-economic Pharmaceutical Outcomes Research (PEPI/PE Outcomes)

Location: University of Maryland School of Pharmacy, Baltimore, MD

Description: Post-doctoral fellowships are available starting September 2019 or later at the University of Maryland, School of Pharmacy in the Department of Pharmaceutical Health Services Research. The fellowship provides multidisciplinary, advanced training and prepares fellows for positions in the pharmaceutical industries, consulting, academia, and government.

Fellows engage in pharmacoepidemiology and pharmaco-economics outcomes research on federally-funded as well as private and corporate-funded projects. Training includes, but is not limited to mentored research, grant-writing, quantitative analysis with large administrative databases, and cost-effectiveness modeling with novel patient-informed inputs. Trainees may also take coursework in comparative effectiveness research, patient-centered outcomes research, pharmaco-economics. This position involves working closely with academic, patient, and other stakeholder partners.

Fellows receive a competitive salary and benefits.

Qualifications: Excellent communication, organizational, and time-management skills are a must. Must have experience with quantitative methods for pharmacoepidemiology or pharmaco-economics research and with data analysis of large administrative databases. Those with a PhD in a health-related discipline are strongly encouraged to apply. Strong quantitative and/or qualitative skills are a plus.

How to Apply: Applicants should submit a letter of interest, curriculum vita that is signed and dated, a writing sample, and three letters of recommendation. Review of applications will start immediately. Finalist interviews will take place on-site in Baltimore following telephone screening interviews.

The University of Maryland is an equal opportunity employer.
