

Postdoctoral Positions at The University of Maryland School of Pharmacy

Postdoctoral positions are available at **The University of Maryland, Baltimore. The positions are located at the Shady Grove Campus, Institute for Bioscience and Biotechnology Research located in Rockville, Maryland / IBBR**<https://ibbr.umd.edu>). IBBR is a joint research institute between the University Maryland and the National Institute of Standards and Technology (NIST). IBBR is in close proximity to multiple pharma/biotech companies as well the FDA, NIH and USP. The trainees will work closely with researchers from the University of Maryland and NIST. There are also opportunities to work with scientists from industry. The projects apply biophysical techniques to characterize biologics, such as vaccines, therapeutic proteins and gene therapy products. Candidates should have a Ph.D. in biophysics, biochemistry, physical chemistry or related fields. Background in NMR spectroscopy is highly desirable. Send applications to Prof. Bruce Yu at byu@rx.umaryland.edu.

[UMB requires all faculty, staff, and students to be vaccinated against COVID-19. Exemptions for medical or religious reasons will be processed through Human Resources.](#)

The University of Maryland, Baltimore is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to sex, gender identity, sexual orientation, race, color, religion, national origin, disability, protected Veteran status, age, or any other characteristic protected by law or policy
