Join us for a public screening of the award-winning documentary *Care*. This film pulls back the curtain on the poignant and largely hidden world of in-home elder care. Beautifully shot and deeply moving, the film reveals the deep bonds that form between paid care workers and elders while exposing the cracks in the U.S. care system. *Care* highlights an issue that affects us all – urban and rural, immigrant and native born, red state and blue. Providing quality care for an aging population will require re-imagining how we value and compensate care workers and how we support families who need their services.
