CONTINUING MEDICAL EDUCATION

Johns Hopkins Division of Geriatric Medicine and Gerontology
presents

Edmund G. Beacham
45th Annual
Current Topics in
Geriatrics

Thursday–Saturday • February 8-10, 2018
Baltimore Marriott Inner Harbor at Camden Yards
Baltimore, Maryland

Dr. Beacham's vision when he developed the course in 1972 was to provide scientifically-based practical, clinical talks focused on improving the health care of individual seniors. It is in that spirit and in his memory that we dedicate the Annual Current Topics in Geriatrics. In his 93 years he trained and mentored many and this is their opportunity to share his vision by participating in the course.

This activity has been approved for **AMA PRA Category 1 Credits™**.

JOHNS HOPKINS
MEDICINE

Description

The aging of the American population is well known and significantly impacts many aspects of health care needs and delivery. Most physicians have received very little or no formal geriatrics training, despite this growing trend in the number of elderly patients they care for. Surveys demonstrate that physicians commonly report discomfort and dissatisfaction with providing care to the elderly. Further, studies evaluating standard quality indicators for the care of the vulnerable elderly show quite poor quality of care. Elderly patients with multiple co-morbidities report high rates of dissatisfaction with their health care.

This activity is designed to provide practical information to clinicians and healthcare professionals who care for elderly patients. It will improve knowledge about diseases and syndromes common in the elderly and offer practical and effective guides to their management.

Objectives

- After attending this activity, the participant will demonstrate the ability to:
 - Recognize common geriatric syndromes and initiate treatment for these syndromes.
 - Identify approaches to and limits of management of specific disease of organ systems that are common in the elderly, e.g. diabetes, congestive heart failure and Alzheimer's Disease.
 - Describe important research developments that influence the clinical care of geriatric patients.
 - Describe the dynamic nature of current support of primary care practice for seniors and the opportunities to improve quality of care.

No refunds will be made thereafter. Transfer of registration to another Johns Hopkins activity in lieu of cancellation is not possible.

We wish to acknowledge the support of the Johns Hopkins Geriatric Workforce Enhancement Program.

Syllabus

All registrants will receive a flash drive with the slides and paper for note-taking. This is included in the cost of your registration. A link to the syllabus will be provided via email shortly before the activity if you want to print the syllabus.

Hotel Reservation Cut-Off Date: January 17, 2018

A limited block of sleeping rooms has been reserved for your convenience and will be available on a first come, first served basis.

The Baltimore Marriott Inner Harbor at Camden Yards hotel offers a convenient and central location in the heart of Baltimore. Located on the west side of the Inner Harbor, this contemporary hotel provides easy access to Baltimore's Inner Harbor and National Aquarium. Make your reservation online at: <https://aws.passkey.com/go/currenttopics> or call the hotel directly at (800) 468-3571 and specify that you are attending the Johns Hopkins Current Topics in Geriatrics to receive the special group rate \$145 single or double, plus tax. On-site parking is available at an additional charge. Check-in time is 4:00 p.m. Check-out time is 12:00 noon.

Evaluation and Outcomes Survey

Post activity, an online evaluation form will be available to attendees to evaluate the activity and individual presentations and identify future educational needs. Upon completion of the evaluation, the learner must attest to the number of hours in attendance. Credits earned will be added to the learner's transcript and immediately available for print. A survey will be sent to all physician attendees within three months post activity to assist us in determining what impact this activity had on the learner's practice.

How to Obtain Credit

Post activity, an online evaluation will be available to attendees to evaluate the activity and individual presentations and to identify future educational needs. Upon completion of the evaluation, the learner must attest to the number of hours in attendance. Credits earned will be added to the learner's transcript and immediately available for print. **The last day to access the evaluation and attest to your credits is March 27, 2018.**

Emergency Calls

During the days of this activity only, February 8 - 10, 2018, direct emergency calls to (410) 962-0202. Messages will be posted for participants.
