

# **Projects and Publications Updates**

**Project: Building Trust to Enhance Diversity in Aging Research  
Collaborators: National Institute on Aging**

**We had three focus groups with older African-Americans in February and March. We are looking at data and thinking about new ways to reach out to our two other groups: older adults with disabilities and those who can't leave their homes. We are following current laws about meetings and social distancing. Even in uncertain times, we want your voices heard. When we are able to come together again, we hope to hear from you as part of this project.**
