

ISPOR 2023

May 7 – 10, 2023
Boston, Massachusetts, USA

Monday, May 8th

Issue Panel: 4:45PM – 5:45PM

[In search of a Goldilocks Reference Case in the US: Could an Insured Member or Patient-Informed Reference Case Be "Just Right?"](#)

Liden B, Campbell J, Oehrlein E, Slejko JF

Poster Presentation: 5:45PM – 6:45PM

[Pilot Testing a Patient-Driven Discrete Choice Experiment Instrument for Patients with Chronic Obstructive Pulmonary Disease: Methods and Qualitative Results](#)

Ricci S, Pan YY, dosReis S, Slejko JF (Code: PCR 90)

Tuesday, May 9th

Poster Session: 9:45AM – 1:15PM

[Treatment Preferences Among Adults with Reduced Productivity Due to Depression](#)

Amill-Rosario A, Xie RX, Chapman RH, Slejko JF, dosReis S (Code: PCR113)

Poster Session: 9:45AM – 1:15PM

[Patient-Informed Value Elements for Economic Evaluation of Treatment for Major Depressive Disorder: A Systemic Review and Synthesis](#)

Slejko JF, Mattingly II TJ, Wilson A, Xie R, Chapman R, dosReis S (Code: EE248)

Tuesday, May 9th cont'd

Podium Session: 1:45PM – 2:45PM

[A Discrete Choice Experiment to Assess Patient-Informed Preferences for Major Depressive Disorder Treatment by Depression Severity](#)

Amill-Rosario A, Huan L, Xie RZ, Chapman RH, Slejko JF, dosReis S (Code P47)

Forum: 3:15PM – 4:15PM

[Underestimated: Identifying and Addressing Mechanisms of Bias in HEOR \(an ISPOR Women in HEOR Forum\)](#)

Reed S, Guo J, Slejko JF, Wright D

Wednesday, May 10th

Poster Session: 8:30AM – 11:39AM

[Spirometry Utilization Among Commercially Insured Individuals with Chronic Obstructive Pulmonary Disease \(COPD\)](#)

Pan YY, Reed RM, Davies A, Slejko JF (Code: SA69)

The Patient-Driven Values in Healthcare Evaluation (PAVE) Center at the University of Maryland School of Pharmacy was established in 2018 with funding from the **PhRMA Foundation** as a Center of Excellence in Value Assessment. Over the past four years, the Center expanded its patient-centered research in chronic obstructive pulmonary disease and major depressive disorder and is examining values related to telehealth and inequality aversion. Our team is establishing methods for eliciting, quantifying, and translating patient-informed value elements into value assessment with real-world applications.

PAVE is a Center of Excellence in Patient-Driven Value Assessment dedicated to promoting value-based decision-making through a diverse multi-stakeholder collaboration and engaging patients from an extensive network of partners to build technical expertise in patient-centered outcomes research, education, and dissemination.
